Delay in screening program for breast cancer in La Ronge

The bus with the mobile Saskatchewan Screening Program for Breast Cancer has encountered some mechanical problems and will now be arriving at the La Ronge Health Centre on Wednesday, September 30, instead of today, and staying until the week of October 13th, 2009. Women 50 years and older are eligible for free mammograms. For more information, or to book an appointment, call the Saskatchewan Cancer Agency at 1-800-667-0017.
